

Whatever your business, we've got the landline

Let us look after your landline

Whatever you need, from a single line to ISDN30, we've got it.

We use the same infrastructure as BT but we combine this with our award-winning service. So if you have a BT landline you can transfer the line and number to us.

And if your mobiles are with us you get one contract, one bill and one point of contact for everything. Simple.

What's available?

- Landlines – one number, one line (also called analogue)
- ISDN2 – two channels on one line for voice, data or fax
- ISDN30 – up to 30 channels on one line
- Calls Only – if you're in a contract with BT you can move your call charges to us and pay BT for the line.
